To Whom It May Concern:

I have had the pleasure of working with Mark Olson for many years. Through the years he has risen from carpenter to job superintendent.

I have found Mark to be a very responsible and trustworthy person, capable of handling many types of jobs. Mark would be a plus for any future company.

Personally, I have no reservations about recommending Mark for work in the construction industry.

Yours truly,

William Greer  
Retired General Superintendent  
Saunders Construction, Inc.
